

AMENDMENTS TO THE SPECIFICATION

In the Specification

Please substitute the following amended paragraph(s) and/or section(s) (deleted matter is shown by strikethrough and added matter is shown by underlining):

Page 1, line 5, please add the following header:

Field of the Invention

Page 1, line 7, please add the following header:

Background of the Invention

Page 1, line 31, please add the following header:

Summary of the Invention

Page 6, line 18, please add the following header:

Brief Description of the Drawings

Page 6, line 27, please add the following header:

Detailed Description of the Invention

In the Abstract

Please substitute the following amended Abstract for the Abstract as currently pending (deleted matter is shown by strikethrough and added matter is shown by underlining):

The invention relates to a method for recording the position of an object in space, comprising a fixing step in which three light sources (~~2, 3, 4~~) are fixed to the object such as to define a triangle, an activation step, in which the light sources (~~2, 3, 4~~) are switched on, a

recording step in which the object, with switched on light sources ~~(2, 3, 4)~~, is simultaneously recorded from a first and a second position and an evaluation step in which the positions of the light sources ~~(2, 3, 4)~~ are determined in the recordings and the position of the object calculated from the positions of the light sources ~~(2, 3, 4)~~.
